Property Description

This lot of 8,491 square meters features a quaint and comfortable cabin and several building sites, all with panoramic views of the valley spread out below. The cabin at the top features a kitchen and living room area, with bathroom and upstairs bedroom loft. The high ceiling and large windows capture the incredible views from inside. There is an unfinished patio/barbecue area off the side that just needs a roof installed. The spring-fed water source offers great-tasting and pure water. The property borders a public road. There are three other building sites on the property where additional cabins could be constructed, offering income potential. The property is located in the area known as Alto Santa Marta, just above the very popular ex-pat neighborhoods of Miravalles and Quebradas. The drive into San Isidro de El General is only about 15 minutes and to the beach, about an hour. The public road provides good access, as does the internal gravel road that provides easy access to all sections of the property.
