Property Description

This is a beautiful property located in the heart of Escaleras in the mountains above Dominical. The property sits at approx 1000 ft elevation and has great cool breezes and a nice jungle setting. There is also a creek that flows down one side of the property in the jungle, mature fruit trees, and a small peek-a-boo ocean view. This 3 bedroom, 2 bathroom home has an electric gated entry off of the public road. It is a one-story home with a cozy feel but everything you need. It has energy-efficient ACs, plus a full kitchen and living room. It was recently renovated to include granite in the kitchen and beautiful wooden counters in the bathrooms with stone vessel sinks. It has a covered porch and a saltwater pool with a nice deck next to the pool. The property has legal ASADA water and also has its own well. And it touches a public road so building more will not be a problem. It is a 5 min drive down a well-maintained dirt road to get to the coastal highway and then 5 min in either direction will take you to Dominical or Uvita, beautiful beaches, restaurants, and stores.
