- Fully Landscaped
- Split Air Conditioning

Property Description

This one level home is located in the quaint town of Naranjito, which is just 15 minutes from the Quepos Marina Pez Vela and 20 minutes from the Manuel Antonio beaches and park. The home sits on a lovely half acre property with mature fruit trees, native hardwoods, and cleared grassy areas. The fully fenced property has a security/privacy gate and a paver-stone driveway and parking bay, giving it a country estate type of feel. The house is approximately 15 years old, was built by the family who currently owns it (and resides there), and has never before been to the market previously. The floor plan offers a large living room in the front / center of the house, a proper master suite, three additional bedrooms (total of 4 bedrooms), and a beautiful study/library. The kitchen faces the back garden, and there's also an attached carport and utility room. The house is very functional, has high ceilings with exposed wood beams, a good metal roof, and is built of sturdy materials.
