Property Description

The most popular and exclusive gated community on the southern Pacific coast is where you will find this estate of almost 8 acres with jungle, waterfalls and the large Mediterranean Villa. The current, and original owners, hiked the land and personally chose this pinnacle property because of the panoramic views, the amount of land, and the privacy it would provide. The grand two-story foyer with domed fresco ceiling and circular staircase with iron railings and rare hardwood floors ascends to the master suite which encompasses the entire second floor. The suite's wrap-around balcony affords the same views as the grand first floor with the added benefit of being at eye level with the monkeys passing through the adjacent conservation land and the Toucans singing in the trees. The large ensuite with intricate mosaics includes a double vanity with claw foot tub and outdoor shower. A bright and spacious walk-in closet with windows is outfitted with teak cabinets and shelving.
