📍 Atenas, Alajuela

• Property Type: Single Family Homes • Bedrooms: 3 • Built: 2024 • Size: 8810 sq m • 2.18 Acres • Floor Area (SQFT): 1,830

• Status: Active/Published • Parking Spaces

Property Description

This beautifully designed home is still under construction and is expected to be ready in April 2024. The house will have 3 bedrooms, 3 bathrooms. The house is located on a property of almost 2 acres of land (8810m²) in which there are parts that can be used to build an additional cottage, a work shop or others. It is located 2 miles from downtown Athens, which makes it very accessible to supermarkets, restaurants and more. It is a gated community, which makes it a very quiet neighborhood due to little vehicular traffic. Despite being under construction, it is already advanced so we can still visit it at any time, contact us and let's schedule that visit to what could be the house of your dreams.
