Property Description

Another extraordinary design by GPW Development!! Elegant & Modern - with a beautiful Ocean View. Casa Pacifica is designed to capture the tranquil views over the Pacific Ocean. With a flare of mid-century modern architecture, this luxury custom built home leaves nothing on the table. As you walk up to this two story home you are greeted by a grand entrance with loads of curb appeal. The spacious open concept living space invites you in and guides you through to the impeccable ocean views. The primary bedroom situated on the main floor, complete with walkout patio and oversized soaker tub, is private & elegant. The two other bedrooms on the upper level closely follow suit with large windows ensuring that nothing obstructs the beautiful view. Enjoy basking on the sundeck that surrounds the large infinity pool and at night cozy up to the fireplace and built in outdoor living area. Casa Pacifica is located on a quiet and private road in the gated community of Phase 5, just 2.
